

# 45<sup>TH</sup>

## PARALLEL

45th Parallel Vodka comes from a small, artisan distillery located in the Western Wisconsin town of New Richmond. In recent years, craft distilleries have been establishing themselves across the United States, primarily in the coastal states. This trend is now entering the Midwest, and 45th Parallel Spirits is leading with a truly handcrafted vodka.

### OUR UNIQUE PROCESS

We are one of a very few small distilleries making all of our vodka entirely from scratch. Every drop is made by us from our grain and we do not blend with purchased spirits. Quality is obtained through slow fermentation and distillation practices. Rich, natural flavor and a subtle nose from the grain is retained through a personal carbon filtering process. You will not find artificial flavoring in 45th Parallel Vodka.
