

## THE FARM & THE CORN

All of the corn for 45th Parallel Vodka is provided by Rusmar Farm, having the highest reputation for consistent quality. Rusmar Farm is a small, sixth-generation family farm, owned by Arlen Strate and operated with the help of his son, John. Our Local mills and farm implement dealer agree that Arlen produces the most consistent, high quality crops. Coincidentally, Rusmar Farm is located smack-dab on the 45th parallel and is close to our building.

## THE DISTILLERY

We built our facility and fitted it with the highest quality equipment capable of producing and bottling all of our vodka under one roof. It is located close to 45th parallel, the grain source and cattle for stillage disposal. After touring facilities throughout the country, Bill Owens, the American Distilling Institute President, said, "I'd rank him one or two in the nation for having his act together. He planned and built a free standing building from scratch and Werni's got the vision of a craft distillery entrepreneur of the highest level."

## OUR PEOPLE

Paul Werni founded 45th Parallel Spirits, LLC. A personal desire to create a world-class spirits led to the creation of 45th Parallel Spirits. Paul Sr., a retired phone-man, is lending his golden time to help in the distillery. Scott Davis, a restaurateur, is adding his creative skills to the distillery.
